Available with lumbar support back,
or with optional cut-away double
lumbar support.

Now available with MoistureBarrierFabric™
to protect your chairs from spills and accidents
standard on our 15 most popular fabric colors.

Space Saving Design with Big Chair Comfort

The Celebration chair is designed to allow extra space in your sanctuary without losing big chair comfort. The front to back measurement is 23" and the space between the legs is 17½", which is 3" to 4" less than most other church chairs. This is accomplished by designing the legs to set back under the seat cushion, while still giving full seat size comfort, 3.5 inches of dual-ply high density virgin foam and standard or optional dual lumbar back support. Celebration, a space saving, highly comfortable and ergonomically correct chair.

- **98% Recyclable since 1988.**
