

Underseat Bookracks

Factory installed and painted in the frame color of the chair. Hold books up to 2½" thick. Includes communion cup holder.

Upgraded Self-leveling Floor Glides

Designed to allow your chair to sit level on a floor regardless of floor imperfections. The nylon based glides swivels as needed. Non-removable high impact nylon glides protect floors.

Clear Stack Buttons

Stack buttons have positive tight fit to stay in place and protect the legs from marring during stacking. Clear buttons blend in and are less noticeable.

Gangers

Interlocking the chairs together is a building and/or fire code requirement. Our unique gangers interlock with ease and are convenient and safe to use. Gangers will keep the chair rows aligned in neat safe rows.

Book Pouches

Sewn into the back of the chair like an airline seat. The elastic band holds the pouch securely to the back of the chair. These pouches will hold one hymnal or small Bible. Not designed to hold purses, etc.

Removable Bookracks

Removable bookracks may be added to chairs after being manufactured. Must be removed prior to stacking the chairs. Available in popular Silvertone color.

Card Pockets

Will hold visitor registration cards, offering envelopes or special notes. Choose either single pocket 6" wide or full width, both are 4" deep.

Chair Dollies

Choose from three models; Model #500 is a cost effective two wheel truck for moving stacks of chairs being delivered. Models #600 or #100 are 3 wheel models used to move stacks of chairs from meeting room to storage. #100 for banquet chairs, model #600 for all others. Will move stacks of 8-12 chairs with ease.
