

*Trusted for more than 30 Years*

Veteran Owned and Operated 

Church Plaza<sup>TM</sup>

America's Church Resource

A Christian Workplace Company

America's leading provider of quality church seating, worship products and services.

## *Trusted for more than 30 Years*

Endorsed by 46 national denominations, fellowships and ministries and/or their publishing houses since 1986.

## Our Ministry is to Support Your Church.

### **ChurchPlaza's Pledge to You**

1. We will provide only the highest quality products and services at fair prices and with trustworthy warranties that can be relied upon to be there if needed.
2. If a problem occurs, ChurchPlaza will work to resolve it quickly and with minimum disruption to your church.
3. ChurchPlaza sales representatives will only speak the truth, speak only about ChurchPlaza products unless pointing out differences with other products and will not speak unflatteringly by name of a competitor.
4. ChurchPlaza will honestly promote and warrant our products without sales gimmicks, slick advertising or confusing offers.
5. ChurchPlaza representatives will try in all ways and at all time to be God honoring as we support your ministry.

Today, you have many choices in seating and other products and services for your church.

So, how do you separate the wheat from the chaff?

At ChurchPlaza, we've made the choices easier for you through our 3-Step Promise.

## 1. Quality!

You simply can't find better made or more trustworthy products and services than those we provide.

We carefully design, manufacture and select the finest products and services after meticulous research and testing. In most cases, these products and services are provided exclusively for ChurchPlaza and our exacting standards- standards that have been shaped through more than 30 years of experience as we assist more than 10,000 churches every year in their purchasing decisions.

## 2. Value!

Our combination of quality, low prices and trustworthy guarantees represents your best purchasing value.

We form long term, volume purchasing relationships with the finest manufacturers and services in the world while also eliminating their sales and marketing costs. The results are lower pricing and more benefits to the individual church than buying "direct." Because our only focus are churches and ministries, we know how to add valuable services and trustworthy guarantees that others won't or aren't able to provide the individual church.

## 3. Trust!

Our ministry is to support your church.

We have been owned and managed for more than 30 years by mature believers with a lifelong commitment to The Church. We are pledged to your well being. If problems occur, we will faithfully work to resolve them in a positive way while we strive to minimize distractions to your church.

At ChurchPlaza, you will always have peace of mind!

We provide your church with more than just quality products and services. We provide the very finest products and services...at the very best values...with helpful and knowledgeable consultants...and with guarantees you can trust. We provide your church with peace of mind. This is our ministry and our promise to you!

Dr. Thomas McElheny  
Founder  
ChurchPlaza

*Trusted for more than 30 Years*

## About ChurchPlaza

“ChurchPlaza was the first service provider endorsed and recommended to our **Willow Creek Association** members because of the **QUALITY, VALUE** and **TRUST** they provide our association members. These are people you can trust!”

*Jerry Butler*  
*The Willow Creek Association*

**C**hurchPlaza was formed to serve America’s churches, church schools, ministries and related organizations as a trusted resource for quality products and services. **Over the years, 46 national denominations, fellowships, ministries and/or their publishing houses and America’s leading provider of church insurance have endorsed and recommended ChurchPlaza to their members and churches.**

By bringing together the purchasing power of tens of thousands of churches, ChurchPlaza creates advantages in pricing, selection, service and guarantees that are simply not available to an individual church. Serving churches and ministries is our calling and our only business!

Most products and services are designed and manufactured specifically for ChurchPlaza. We eliminate the need for manufacturers and providers to incur marketing and selling cost to access the Faith Markets and we are able to provide churches with better than “direct” pricing.

In over 500,000 transactions over the past 30 years we have never been sued nor sued anyone else, failed to deliver a paid for product or service nor had any complaints of any kind filed with any denominational, governmental or oversight authority about our business practices.

Compare our values and exceptional quality, then add in the benefits of our trained sales consultants, warranties you can trust, our heart and history for ministry and you can see why ChurchPlaza represents your church’s best purchasing value!

## Beware of the Potential Dangers of Uncertified Church Chairs!

**ChurchPlaza** is the first church and sanctuary chair provider to laboratory **certify** its chairs, foundations, fabrics and foam to be in compliance with applicable international, United States, state government and industry recommended standards and requirements for no/low emissions from carcinogenic chemicals.

Following extensive testing by an internationally recognized United States based commercial testing laboratory, be it known that ChurchPlaza worship seating (models Jericho, Ambassador, Jubilee, Joshua, Celebration, Inspiration, Harmony and Banquet Chairs) and in accordance with ANSI/BIFMA e-3-2014 furniture sustainability standard, ChurchPlaza's worship seating is compliant with ANSI/BIFMA e3-2014 furniture sustainability standards section 7.6 established for seating to be classified as low-emitting furniture.

The chairs were also found to be compliant with California Department of Public Health (CDPH) freestanding criteria, LEED v4 and CHPS criteria. Qualified project uses of these chairs may be eligible for ANSI/BIFMA e3-2014, LEED and CHPS criteria.

By successful compliance with these standards, the chairs also meet the criteria of MAS Certified Green.

Please obtain the following assurances **in writing** from any church seating provider your church may be speaking with **or don't buy their chairs!**

1. That all plywood or pressboard seat/back foundations used in their chairs are certified to be in compliance with CARB Phase 2 (California Air Resources Board) AND The Formaldehyde Standards for Composite Wood Products Act (signed July 7, 2010).....both establishing formaldehyde emissions limits for indoor plywood and press board products. Failure to do so may expose your congregation to dangerous levels of carcinogenic chemical fumes.
2. That all foam used in the chair is laboratory certified to have non-detectable emission levels of TDCPP (a known carcinogen present in many commercial flame retardants) AND the foam used in the chairs is laboratory certified to be free from formaldehyde.
3. That the chair fabric has been laboratory certified to be in compliance with international free formaldehyde standards contained in JIS 112 and The European Oeko-Tex100 and American textile Restricted Substances List.
4. To further protect your church, insist the chair provider warrant IN WRITING; 1) That ALL (100%) foam used in the chair is VIRGIN, high density commercial grade foam 2) That ALL (100%) of the foundation fasteners are high quality steel to steel T-nut fasteners and 3) That all fabric wear, durability and fabric characteristics claims be certified by the fabric manufacturer and 4) That all paints used meet applicable regulations.

Effective 4/8/13

# Features & Accessories

## The World's Highest Quality Church Seating.

### Strongest Frames

Always high tensile strength quality 1010 carbon steel. Our sanctuary chairs use TRUE 1 inch 16 gauge steel (not the weaker 18 gauge) with true mandrel bends with full 1 inch welds and 5/8 inch crossbars for foundations that will support over 1700 lbs and last a Lifetime.

### Chair Ganging

Our QuickRelease™ and retractable interlocking chair systems will satisfy building and/or fire code requirements. Easy, convenient and safe to use.

### Durable Foundations

Our seat and back foundations are industrial quality 1/2" CARB 2 certified plywood (never imitation plywood such as OSB, Strandboard or Multi-Ply™) or Space age PolymerTough™ lightweight for superior strength and holding power. Our wood foundations are certified for safety from cancer-causing formaldehyde emissions.

### Stafast™ Fastening Systems

ChurchPlaza introduced "T"-Nut construction to the church seating market! We exclusively use Stafast™ steel-to-steel non-slip T-Nuts to hold our real plywood seat and back foundations to the world's strongest church chair frames. Provides 5X the holding power of wood screws and more holding power than BOS™ steel-to-plastic fastening system.

### Quality Fabrics

ChurchPlaza fabrics are among the highest quality commercial fabrics available and certified for safety, wearability, color fastness and durability with MoistureBarrier™ protection added at no additional cost. Many fabric choices to match any décor.

Espresso

Khaki

*Trusted for over 30 Years*

**Simply the Best Built, Safest, Best Value and Most Comfortable Church Seating Available Anywhere!**

### Underseat Bookracks

Durable welded factory installed and painted in the frame color of the chair installation.

### Removeable Bookracks

May be added to chairs after chairs manufactured. Must be removed prior to stacking chairs. Mount for front or rear book access.

### Wheeled Carts

2 wheeled cart for unloading and moving chair stacks into your facility; extra wide toe plate covers the width of the chair and chair base. 3 wheeled cart (CP013-KD) accommodates up to 10 chairs for the ease of transporting chairs to storage within your facility.

### Floor Glides

We offer 3 choices of quality floor glides to best match your floor surface.

### Stack Buttons

Multiple stack buttons have positive tight fit to stay in place and protect the legs from marring during stacking.

### Dual Layer Foam

ChurchPlaza introduced the first dual layer foam chairs to the Worship Market in 1989 and we have continued to perfect the additional comfort of combining a firmer Virgin underfoam with a softer Virgin top foam.

### Card Pockets

Visitor cards, offering envelopes, prayer cards, hymnals or Bibles - Card Pockets available in fabric or plastic with or without communion cup holders..

*Trusted for more than 30 Years*

# ChurchPlaza Chairs are built to last!

## **MAS Certified Safe Chair Components**

ChurchPlaza is the first worship chair provider to laboratory certify all chair components safe and in compliance with applicable International, US, State and Industry standards for emissions from toxic cancer causing chemicals including formaldehyde and TDCPP. All wood foundations used are certified CARB 2 and compliant with US Standards for Composite Wood Products Act. All chair foam is free from formaldehyde and with non-detectable levels of TDCPP and compliant with California Proposition 65. Chair fabric has been laboratory certified in compliance with JIS 112, European Oeko-Tex 100 and American Restricted Substances List.

## **The Frame is the Strength of the Design**

Once you have the opportunity to try one of our ChurchPlaza chairs, you'll know why these chairs are built to last. When you first sit down, you'll immediately feel frames that were designed to support you forever. As you examine the construction of the frame and see the quality of the workmanship, you'll understand why we extend a LIFETIME frame warranty.

## **Heavy Duty Steel**

ChurchPlaza frames are designed to be maintenance free and are produced to exacting standards. We start with QUALITY STEEL that is precision welded, using heavy duty 1", 16 gauge square tubing in the base, and 5/8" cross bracing.

## **TRUE Mandrel Tube Bending**

The ChurchPlaza Standard is to build the strongest chairs possible! We use mandrel bending for the steel used in our chair frames. In that way, the excess material from the bend is channeled to the inside of the curve to provide a smooth, even, and strong bend. There is no crushing to compromise the integrity of the steel, thus insuring your church of a quality chair that will support you for a lifetime.

## **Quality in Design**

Mandrel bending is only part of the story. The design of the frame is what is really noteworthy. We actually use multiple frame designs for ChurchPlaza Sanctuary Seating chairs (not like others who save money by using one frame design for all applications) with each designed for a specific application. All Sanctuary Seating frames have tubular cross bracing between the legs and not simply welded rods. This provides the ultimate support and strength and contributes to the design of the frame to exceed BIFMA standards.

## **Trustworthy Warranty**

The industry's most comprehensive and trustworthy seating warranty from those who have earned the endorsements and recommendations of 45 national denominations, fellowships, ministries, and/or their publishing houses. Be sure to read the fine print and compare with other chair providers.

## **Built to Exceed BIFMA Standards**

ChurchPlaza chairs are built to exceed the rigorous standards set by the Business and Furniture Manufacturers Association (BIFMA). You can feel confident that your chairs are going to continue to look good, even after rigorous use.

## **Frame Finish**

Scratch Resistance is the benefit of our 8-Step Electrostatic painting process, known as "Powder Coating." The paint used in ChurchPlaza chairs electronically bonds to the metal for a superior and durable finish. This is the same process used in automotive painting. It resists scratching, chipping and peeling so your chairs will retain their "like new" look over many years of use.

**Foam Comfort: Two Are Better Than One**

Our quality engineered dual layer foam construction has re-vitalized seating comfort and added to the life expectancy of our foam seats. The top layer of high density virgin polyurethane foam provides luxurious plush comfort. The base layer of durable foam provides durability and support, preventing bottoming out on the seat foundation. All the foam in ChurchPlaza seating is top quality, high density virgin foam and not recycled or re-manufactured foam. Comfort beyond expectation!

**Better Built 1/2" Industrial Grade Plywood Foundation**

Our chair's quality foundation are a key to providing the ultimate in support and durability for the life of the chair. ChurchPlaza's quality CARB 2 certified plywood is resistant to cracking and unwanted flexing found in less expensive particle board or manufactured plywood, known as Strandboard, OSB and Multiply. Seats and backs are attached using Stafast™ T-Nuts, not wood screws or metal-to-plastic dashboard fasteners, to insure a positive secure anchor to the frame. Stafast™ T-Nuts provide positive steel-to-steel contact and prevent screws from working loose and falling out.

**Lumbar Back Support System**

The ChurchPlaza collection of sanctuary chairs are available in multiple back designs. Our Back Support Systems are designed to provide the optimum comfort for the upper back area, additional support for the lumbar area and superior support for the back. Lumbar support is standard on all ChurchPlaza sanctuary chairs; this is accomplished by inserting extra foam in the lumbar area. To enhance the comfort, the back is designed in two sections. The upper section has 1 1/2" of foam plus 3/4" of added foam in the lumbar area and the lower section of the back foam is cut away, providing extra gentle pressure in the lumbar area of the back while also giving additional seat room. Comfort without compromise.

**Highest Quality and Safest Fabrics**

ChurchPlaza sanctuary chairs are upholstered with only the highest grade and safest commercial fabrics from quality mills. These mills have been selected to produce fabrics for the finest quality manufacturers of furniture and the automotive industry. Their quality control is the highest in the fabric industry. The fabric we recommend as our standard exceeds the commercial grade surface abrasion test known as the Wyzenbeek test and is also MAS safety certified to be safe from dangerous carcinogenic chemical emissions. Heavy duty is rated at 15,000 double rubs; our choices can exceed 150,000 double rubs. The Break Strength test (ASTM-D-1682) normal is 50 lbs. while our tests to 276 lbs. The tear resistance is almost 50 lbs., when the standard is 6 lbs. (ASTM-D-2262). All fabrics meet Cal 117 fire code. Our fabric will continue to keep its appearance for years to come. Expansion in the future with additional chairs will continue to match the original in color and good looks. All our fabrics come with MoistureBarrier Fabric™ treatment at no additional cost to protect your chairs and foam from spills and accidents.

**The ChurchPlaza Warranty**

Our Trustworthy Stackable Seating Warranty™ is the industry's most comprehensive and includes:

- Lifetime frame guarantee
- 25 year structural seat and back warranty
- 10 year foam warranty
- 10 year fabric limited warranty wear protection
- 5 year seam warranty

## ChurchPlaza Financing Services

*Program administered by Hampton Ridge Financial Services.*

### Quality Products For Your Church

ChurchPlaza has been a leading national provider of quality seating and other quality capital equipment and services to America's churches for more than 30 years. During that time we've earned the endorsements and recommendations of 45 national denominations, ministries and/or their publishing houses. Quality products and services - at affordable prices - from people your church can trust. That's ChurchPlaza!

### Quick Easy Affordable Financing

Financing allows churches to get the seating they need without delay and redirect resources to other ministry needs. Churches rely on a multitude of equipment to run day-to-day operations, such as seating, security systems, copiers/printers, telephone systems and office furniture to audio, video and lighting equipment that is vital for their worship and praise services.

When you need the proper seating and equipment to support your ministry, time can be critical. Hampton Ridge Financial Services works with 1000s of churches across the country. This allows HRF to provide proven financing options, so your church can best fulfill your ministry's needs.

### Additional Benefits of Leasing

- Redirect resources to other ministry needs.
- Simple application and approval process.
- \$1 purchase option allows you to own the equipment at lease end.
- Quick turnaround times on Credit Applications.
- Fixed monthly payments throughout term.
- Trade up to new equipment.
- Competitive lease rates.
- Visit us at [www.churchplaza.com](http://www.churchplaza.com) for financing information.
